

# Set Up - Street Signage - Guidelines - Volunteer Position

## Overview

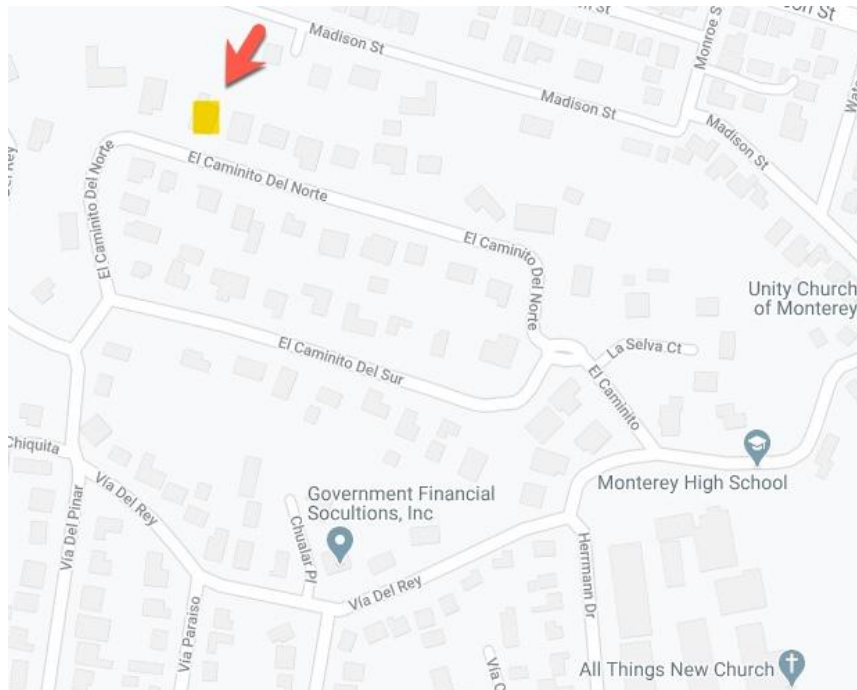

ATN's Street signs are one of the key ways people learn about, and are hopefully encouraged to attend, All Things New.

Signs are to be setup mid afternoon on Saturday and are placed according to the map. They are to be removed immediately after our Sunday service.

>> see signage placement map

## Guidelines

Signs are stored in the storage bin below the deck at the Zwagerman's home (42 El Caminito del Norte, Monterey). The bin has ATN's logo on it.

In placing the signs, take care that you have pointed the arrows in the correct direction to lead guests to the campus, not from it.

When removing the signs, report any missing or damaged signs to [info@allthingsnew.church](mailto:info@allthingsnew.church) so that these signs can be replaced or repaired.

**Important:** Always return the signs to the storage bin from which you retrieved them in case someone other than yourself is scheduled or called upon to setup next week's street signage.
